The directions contained in para 5 of Govt. order of 10th June 1918. Hqr is in the matter of allocation of revenue derived from lands under the 3 canals above the Resr. were based on the Dewan's minute - paras 20 & 21. - dt 8.9.17. The Chief Engineer C.V.I points out that the allocation sanctioned is not practicable and suggests a simpler and more workable arrangement as explained in his letter of 20th May 19 - Hqr. W. paras 4 & 6. - Vide also para 3 of Hqr 7. The Revr Colonies agrees to the proposal. A draft order sanctioning the proposed allocation is submitted herewith for consideration.

1920-1921

K. R. Srinivasiengar, Esqr., M.A.,
Revenue Commissioner in Mysore.

141-20

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Financial *Department.*

SIR,

Referring to your letter No.Fl.5703/G.F.141-20-1 dated 10th February 1921 requesting me to furnish my views regarding the allocation of revenue derived from lands under canals above the Krishnarajasagara Reservoir, I have the honour to state that in this office letter No.C.955/19-20 Gl. dated 29th September 1919 to the Secretary to Government in the Public Works Department (copy enclosed), Mr. K. Chandy has expressed his concurrence with the Chief Engineer, Irrigation Valley, about the impracticability of allocating the revenue under the three canals above the Reservoir in the manner ordered in para 5 of Government Order No.Fl.7513-62/G.F.245-16-4 dated 10th June 1918 and I fully agree with the Chief Engineer and Mr. K. Chandy in their opinion.

2. The Chief Engineer on special duty has in his letter No.269 dated 20th May 1919 to the Chief Engineer in Mysore made certain proposals for the allocation of the revenue under the channels in modification of those sanctioned by Government. These proposals are based on the assumption that the extension of the Mysore channels above the reservoir has been rendered possible in part owing to the supply set free from the lands submerged by the reservoir. If this supposition is correct (and on this point the opinion of the Public Works Department should prevail), the allocation proposed by the Cauvery Valley Irrigation Engineer will be the most equitable one. I would

(10)

Letter No.C.955 G1.19-20 dated 29th September 1919 from the Revenue Commissioner in Mysore to the Secretary to Government, Public Works Department, Bangalore.

Adverting to para 2(iii) of Government Order No.Fl.7513-62/ G.F.245-16-4 dated 10th June 1918 directing the maintenance of separate Capital and Revenue accounts of the three channels (a) Hemagiri (b) Mandagiri and (c) Chamaraj Right Bank channel above the Krishnarajasagara Reservoir, Krishnarajpet Taluk, I have the honour to state that I agree with the Irrigation Chief Engineer, for the reasons stated in the communication under reply that there are insurmountable practical difficulties for working the rules as sanctioned. The Irrigation Chief Engineer's proposals are simple and practicable. Before recommending their adoption, however, I request to be informed whether the re-survey accounts have been debited with the capitalised value of the loss of wet assessment on the submerged lands or the approximate dharkhast value of the lands given in exchange and if so, the details may kindly be communicated.

"C O P Y"

Revenue Commissioner.

Para 5 of Government Order No.Fl.7573-83/G.F.345-16-4 dated - 10th June 1918 directing the maintenance of separate Capital and Revenue accounts of the three channels above the Krishnarajasagara Reservoir.

2. Correspondence ending with unofficial note dated 29th September - 1920 from the Chief Engineer, Cauvery Valley Irrigation pointing out the impracticability of allocating the revenue from the marginally noted - three channels above the Reservoir under the Heads shown in para 5 of Government order read above and that the only suitable -- allocation possible under the circumstances is the allocation under the two classes (a) Revenue from lands under the old canals. (b) Revenue - from lands under the Extensions and suggesting that as these extensions have been rendered possible in part owing to the supply set free from the lands coming under submersion in the bed of the Reservoir the equivalent extension thus rendered possible may be divided in the ratio of the total extent of lands commanded by each of the extensions of the Three channels or in the proportion of capital cost and that all new revenue from the - new extensions till the expansion of cultivation reaches the figure of 10,200 acres may be credited to the Revenue accounts of Krishnarajasagar reservoir, all revenue from extensions over and above 10,200 acres being credited to Revenue accounts of the extension of the 3 channels.
